Later the same day, CMP filed a motion additionally seeking to strike the May 17, 2019 filing by Mr. Merchant.

C. Presiding Officers' rulings on Motion to Strike

1. With regard to comments following the conclusion of the hearing, in its joint Fourth Procedural Order, the Presiding Officers for the Department and the Commission "decided that after the conclusion of the hearing, the record will remain open for a period of ten (10) days for members of the public to file written statements to the Department and Commission, then for a period of seven (7) additional days allowing the public to file statements in rebuttal of those written statements. During this time period, while the record remains open for public comment, parties to the proceeding may not submit additional evidence or comments."
2. With regard to testimony stricken from the record, the Presiding Officers for the Department and the Commission informed the Parties¹ that relevant testimony that was stricken from the hearing record could be submitted separately as written comments but only until the close of the hearing on May 9, 2019.
3. With respect to CMP's motion to strike the May 16, 2019 Intervenor Groups 2 and 10 comments on the agency site visit, the Presiding Officers recognize Intervenor Groups 2

¹ Sixth Procedural Order at ¶ I.8; Seventh Procedural Order at ¶ II.8; Eighth Procedural Order, last paragraph.

and 10's response that the comments were intended to be helpful; however, the site visit points of interest for the Department and the Commission will be developed independently of suggestions by the Parties, particularly any arriving after the close of the hearing. The Presiding Officers do not consider the May 16, 2019 suggestions to be public comments and they are not entered into the record. The Department and the Commission grant CMP's motion to strike Group 2's and 10's submittal regarding the site visit.

4. West Forks Plantation is an intervenor in only the Department's portion of the hearing. West Forks Plantation's comments to the Commission of May 16 are admitted to the Commission's record as public comments. The comments are not, however, entered to the Department's record since West Forks Plantation may not act as both a party to the Department's proceeding and as a member of the public in that proceeding.
5. Consistent with paragraph four, the public comments submitted by Matthew Wagner, Carrie Carpenter, Eric Sherman, Kathy Barkley, Kimberly Lyman, Mandy Farrar, Noah Hale, and Tony DiBlasi to the Department on May 16 are entered into the Department's record, but not into the Commission's record.
6. The comments of Carrie Carpenter, Mandy Farrar, and Tony DiBlasi submitted to the Commission on May 17 are stricken as untimely. These individuals are intervenors in the Commission's proceeding and therefore are not members of the public for purposes of the Commission's proceeding. Additionally, because those comments were not addressed to the Department, they are not entered in the Department's record.
7. Roger Merchant is a witness for Intervenor Group 2, and, therefore, may not submit testimony in the time period reserved for members of the public for purposes of the joint hearing. Mr. Merchant's direct testimony to the Commission was stricken on April 2, 2019 because Mr. Merchant failed to appear for cross-examination before the Commission; Mr. Merchant was not withdrawn as a witness. Mr. Merchant's May 17, 18, and 20 public comments were submitted well beyond the close of the hearing on May 9, which was the deadline for submitting any testimony stricken from the record. Mr. Merchant's comments are therefore untimely and are stricken from the Department's and Commission's records.
8. Mr. Dostie's May 20 comments on behalf of West Forks Plantation to the Commission were timely filed as a public comment and are entered to the Commission's record.
