RE: Response to Memorandum
Nordic Aquafarms Inc., Land-based Aquaculture Facility
Belfast, Maine
L-28319-26-A-N

Dear Ms. Bertocci:

In response to your November 13, 2019 memorandum setting forth this Board submission requirement and on behalf of Nordic Aquafarms, Ransom prepared the following list of “what is revised and what is new” in the November 4, 2019 submittal.

As noted in greater detail below, the submittal contains one new item, prepared in response to Site Location of Development Act (SLODA) Question 4.

The remaining items in the submittal are revisions to, or clarifications of, existing submissions, documents, maps, and calculations.

Natural Resources Protection Act (NRPA) application

1. This response contains revisions and clarification of existing application material.
2. This response contains clarification of existing application material.
3. This response contains clarification of existing application material.
4. This response contains revisions and clarification of existing application material.
5. This response contains clarification of existing application material.
6. This response contains revisions and clarification of existing application material.
7. This response contains revisions and clarification of existing application material.
8. This response contains clarification of existing application material.
9. This response contains revisions and clarification of existing application material.

Ms. Cynthia Bertocci
Board of Environmental Protection

10. This response contains revisions and clarification of existing application material.
11. This response contains clarification of existing application material.
12. This response contains revisions and clarification of existing application material.
13. This response contains revisions and clarifications of existing application material.
14. This response contains clarification of existing application material.

Site Location of Development Act (Site Law) Application:

1. This response contains revisions and clarification of existing application material.
2. This response contains revisions and clarification of existing application material.
3. This response contains revisions and clarification of existing application material.
4. This response contains a new document, a draft Spill Prevention Control and Countermeasures (SPCC) plan.
5. This response contains revisions and clarification of existing application material.
6. This response contains revisions and clarification of existing application material.

The Far Field Dilution Memo provides further support for the conclusions in the Far Field Dilution Memorandum submitted with the original Maine Pollutant Discharge Elimination System Permit (MEPDES) application in October of 2018.

Please contact me with any questions or comments.

Sincerely,

RANSOM CONSULTING, INC.

Elizabeth M. Ransom, P.G.
