**Subject:** juniper ridge landfill

Dear Ms Tarbuck, I am sending you this letter to add my voice to the growing concern over the expansive license requested by Casella/BGS. Despite the initial promises made in 2003/2004 to not allow MSW or out of state waste the deliveries of both have been growing. Please remember Maine Waste Hierarchys mandate to landfill as last resort. By opening this up for public comment during the busiest time of year you have effectively limited the ability of the public to participate. I hope you will take our concerns about the future of Juniper Ridge seriously as how this site is developed directly affects your neighbors and contributes the the health and well bring of all Mainers. Thank-you, Dhyana Bisberg
