

September 16, 2004

Andrew Fisk  
Maine Department of Environmental Protection  
#17 State House Station  
Augusta, Maine 04333-0017

**SUBJECT: Notification of Approval of Unity Pond TMDL**

Dear Mr. Fisk:

Thank you for Maine's submittal of the Unity Pond Total Maximum Daily Load (TMDL) for total phosphorus. This waterbody is included on Maine's 2002 303(d) list as a high priority for TMDL development. The purpose of the TMDL is to address algae blooms due to excessive nutrient loading from nonpoint source pollution.

The U.S. Environmental Protection Agency (EPA) hereby approves Maine's September 9, 2004 Unity Pond TMDL received by EPA on the same day electronically. EPA has determined that this TMDL meets the requirements of §303(d) of the Clean Water Act (CWA), and of EPA's implementing regulations (40 CFR Part 130). Attached is a copy of our approval documentation.

We are very pleased with the quality of your TMDL submittal. Your staff, in collaboration with Unity College and the Maine Association of Conservation Districts (MACD) have done an excellent job of preparing a comprehensive and informative TMDL report. Long-standing local and regional interest, and collaboration on protection efforts bode well for future water quality improvements. My staff and I look forward to continued cooperation with the ME DEP in exercising our shared responsibility of implementing the requirements under Section 303(d) of the CWA.

Sincerely,

Linda M. Murphy, Director  
Office of Ecosystem Protection
